DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 31-37, drawn to a first product.

Group II, claim(s) 38 and 46, drawn to a second product and its first use in a fuel cell.

Group III, claim(s) 39, 41, 44, and 52, drawn to a third product, its method of manufacture and its use.

Group IV, claim(s) 40, 42, 43, 45, and 53, drawn to a fourth product, its method of manufacture and its use.

Group V, claim(s) 47, drawn to a first method.

Group VI, claim(s) 48, drawn to a second method.

Group VII, claim(s) 49, drawn to a third method.

Group VIII, claim(s) 50 and 51, drawn to a fourth method.

Group IX, claim(s) 46, drawn to a second use (solar cell).

Group X, claim(s) 46, drawn to a third use (sensor).

2. The inventions listed as Groups I-X do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The subject matter common to all inventions is a heterogeneous mixture comprising a polymeric matrix and a liquid material that functions as an electrode, electrolyte, or electronic/ionic intermediate conductor. Klein et al (U.S. Patent 4,225,657) teaches, among other features, a polymeric matrix containing aqueous KOH as an electrolyte material (see columns 5 and 6). Accordingly, the inventions lack a common special technical feature which makes a contribution over the prior art (37 CFR 1.475(a)).

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jonathan Crepeau whose telephone number is (703) 305-0051 (prior to December 17, 2003) or (571) 272-1299 (after December 17, 2003).
